

January 5, 2024

Greetings TES Parents!

We wanted to take the opportunity to share with you some changes to our Spring Open House event this year, scheduled for Thursday, March 14th.

Things that will look the same:

- The event is from 6-7 pm.
- There will be parking at the church with shuttles running back and forth to provide additional parking.
- All teaching spaces and classrooms will be open for your visit.
- 5th grade will be hosting their annual Science Fair in their classrooms.

Things that will look new and different:

- There is a theme for the event: **“A Celebration of Our Richness.”**
- Each student will have a presentation board on their desk that will highlight and celebrate them for their individual uniqueness.
- These projects will have some at home and some at school components, so look for information from your child’s teacher about the at home portions.
- There is a limited and optional portion to further extend our theme. Please look for that information coming to you soon.
- The staff, families, and students will all be traveling throughout the school to view the presentations in any or all classrooms that they wish to see.

We are looking forward to this refreshed event and can’t wait to see you there. If you have any questions at all, please just let us know.

In partnership,

The TES Staff
